DIGITAL INSPIRATIONS: BEST PRACTICES FROM INDIA'S e-GOVERNANCE DIGITAL THOUGHT LEADERS

In India, the digital infrastructure for enabling more than a billion people to transact is already available with nationally driven initiatives such as Aadhaar, UPI and DigiLocker. Armed with this infrastructure, digital payments are expected to increase three-fold by end 2017 with almost 5 million electronic point of sale (PoS) machines in place.

The huge push from the Government for accelerating the adoption of digital mediums has certainly helped in a big way. According to statistics available at eTaal, the Government web portal for dissemination of e-Transactions statistics of National and State level e–Governance Projects, the transactions for availing government service electronically have increased by 33 per cent to cross 1,000 crore in 2016.

At the Indian Express Group, we have been part of this journey since the beginning and are excited to witness this huge transformation. As our continued support to the Digital India initiative, this edition of **Technology Sabha** will showcase exemplary success stories from central and state departments, and share best practices from government thought leaders.

The theme for the 22nd edition - "Digital Inspirations: Best practices from India's e-Governance Digital Thought Leaders" is aimed at inspiring and catalyzing innovative best practices. And this especially so, given that the progress of e-Governance initiatives is further accelerating, and India already has several home grown digital success stories in the form of UIDAI and NPCI that are unmatched in the world.

| 100+ HIGH PROFILE ATTENDEES | 3 DAY RESIDENTIAL CONFERENCE | TECHNOLOGY SHOWCASE | PRESENTATION SLOTS | POWER DISCUSSIONS | MEETINGS |

TECHNOLOGY SABHA

Organized by the Indian Express Group, Technology Sabha, has since long been India's premier e-Governance Forum; setting the pace for e-Governance seminars with leadership dialogues, actionable case studies and best practices, networking opportunities and technology showcases.

Technology Sabha has been able to gather key Government ICT practitioners and decision makers, under one roof, as they work towards the creation of a more transparent and efficient governance mechanism.

The 22nd edition of Technology Sabha will be held in Bhubaneswar. The three day residential conference will explore new trends and innovations in creating a digital ecosystem for accelerating e-Governance initiatives.

TOPICS

In this edition, Technology Sabha will feature thought leaders who have undertaken some of the best Government to Government, Government to Citizen, and Government to Business initiatives taken by various departments. Topics that will be discussed include:

- Leveraging technology to build platforms of scale
- Capacity planning: How to use emerging technologies to plan for the digitized era
- Role of analytics and IoT to transform service delivery
- Bolstering cyber security: How to build capabilities now for defending your department now and prepare for the future
- Best practices and case studies on innovative use of technology in eGovernance
- Best practices from specific technology led initiatives in central MMPs such as Income Tax, Post, Pasport, and state MMPs such as agriculture, healthcare, education, public distribution, road transport, crime tracking
- Compliance planning: Preparing IT systems to be compliant with new regulations (Example, GST)

WHY PARTNER WITH TECHNOLOGY SABHA

- **Engage** with 100+ key Government decision makers and be a key driver in the new opportunities and spending on ICT solutions, software and technologies in the government
- **Establish** your position as Thought Leader with leading government organisations as they discuss the most critical and current issues in IT that they face.
- **Leverage** the power of a well co-ordinated marketing plan that reaches this august audience through editorial, print, online, eNewsletters and post event coverage.
- **Network** in relaxed, congenial settings with the creme-de-la-creme of Government IT leaders over 3 days.
- **Gain** insight into India's e-development plans along with specific road maps for individual states, helping you to identify and define future business opportunities
- **Enjoy** complete peace of mind knowing the event is brought to you by Express Computer and the Indian Express Pvt. Ltd.
